

To our clients and partners

Dear clients and partners

Date 16/01/2023

Vertix Asia-Pacific Pte Ltd, Web Earth Pte Ltd, and Ramboll Environ Singapore Pte Ltd become Ramboll, with a new legal name, registered address, UEN number and bank details, effective 1 February 2023

Ramboll
100 Amoy Street
Singapore 069920

<https://apac.ramboll.com>

We are pleased to share that as of 1 February 2023, Vertix, Web Earth and Ramboll Environ will become fully integrated under the Ramboll brand. As part of this integration, Vertix Asia-Pacific Pte Ltd, Web Earth Pte Ltd, and Ramboll Environ Singapore Pte Ltd will be amalgamated into Ramboll Pte Ltd, effective 1 February 2023.

With the best of the respective work practices increasingly embedded across our disciplines, our team continues to provide high quality capabilities. This is now further enhanced by coming together as One Ramboll organisation with more integrated services. Over the coming months, we will reach out to you to explain more about this.

With the amalgamation, we will use a new UEN number and a new Ramboll Pte Ltd bank account, as well as a new registered office address. The team will move together into this new regional headquarters in Singapore in end February together with the other Ramboll companies.

The new registered office address will also apply to Ramboll Singapore Pte Ltd and Ramboll Studio Dreiseitl Pte Ltd. On 1 April 2023, Ramboll Studio Dreiseitl will become part of Henning Larsen, creating a dedicated Landscape Architecture team within the company. Henning Larsen, an international studio for architecture, landscape, and urbanism, became part of the Ramboll Group in 2019, with a shared ambition to be the partner for sustainable change.

From 27 January 2023, our old account will be closed for payments. We ask that any pending payments from you are made to the new Ramboll Pte Ltd bank account from that date onwards. These new details will be used in our invoices from 1 February 2023. The full overview of our new details can be found online [here](#).

As this is a legal amalgamation, the contractual obligations and liabilities are automatically transferred to the surviving entity, Ramboll Pte Ltd. Consequently, any existing contracts with Vertix Asia-Pacific Pte Ltd, Web Earth Pte Ltd, and Ramboll Environ Singapore Pte Ltd will be carried forward unchanged to Ramboll Pte Ltd. Legally there is no need for executing any formal contract amendments, but further documentation can be provided upon request.

Please note that there has been no change in the company's management, your point of contact in our company and the services we offer to you. Please rest assured we will continue to deliver our projects according to contractual terms and to the highest quality that you are accustomed to.

We would appreciate if you could bring this information to the attention of your finance department by conveying them the updated details via the link above.

Should you have any questions, please do not hesitate to contact us directly.

We look forward to continuing to support you in achieving your business goals.

Yours sincerely

Nick Fellows

About Ramboll in Asia Pacific

In Asia Pacific, Ramboll brings integrated expertise and experience in the built and natural environments to drive sustainable change.

Our strategy is to help clients and communities realise their goals and aspirations of a flourishing sustainable future through four unifying themes: decarbonisation for net zero, resilient societies & liveability, resource management & circular economy, and biodiversity & ecosystem.

Ramboll's diverse team draws upon our Nordic heritage and an extensive project portfolio to bring systems thinking and integrated solutions with people and sustainability at our core. As a foundation-owned business, Ramboll puts passion and the common good of our people and business first, thus ensuring the long-term and independent development of the company, its employees and the communities we serve.

About Ramboll Group

Ramboll is a global architecture, engineering and consultancy company founded in Denmark in 1945. Our 17,000 experts create sustainable solutions across Buildings, Transport, Energy, Environment & Health, Water, Management Consulting and Architecture & Landscape. Across the world, Ramboll combines local experience with a global knowledge base to create sustainable cities and societies. We combine insights with the power to drive positive change for our clients, in the form of ideas that can be realised and implemented.

We call it: Bright ideas. Sustainable change. [Ramboll.com](https://www.ramboll.com)
